1. Pre-war coastal artillery guns in Oksywie have been replaced by new guns. The guns withdrawn from Oksywie have been placed in Gdynia, on the quay of the President's Basin, at which coastal navigation ships tie up.
2. It is confirmed that two guns of Polish pre-war production have been mounted near the President's Basin; the inscription "Starachowice" (pre-war gun factory) can still be seen on them.
3. It is considered that these guns came from Hel, since guns of this type were mounted there before the war.
